**Subject:** power outage 5/2/09

Chuck,

Power outage will go forward as planned 4AM-8AM Saturday May 2nd. A back up generator will be brought in for the phone lines, so the alarm probably will not go down (but the trooper will be onsite anyway) All voltage sensitive instrumentation should be turned off on Friday evening and brought back up Saturday morning. I would think that the GC/MS instruments would fall into this category. Please forward the name of the person who will come in to restart instruments/verify alarm as soon as possible, so that I can seek OT for that person and provide security with the name of an authorized individual.

Julie
